
FROM JULES AND ALEX

“From the start of the ‘Wedding Planning’ process I realised how important it was to find the perfect photographer. Dresses, cakes and flowers are all very important, but won’t provide you with a lasting memento of your day.

We really couldn’t be more thrilled with our choice in Simon Young and will forever be grateful to him for what he brought to our wedding. From the first meeting with

Simon we realised he was an absolute perfectionist when it came to photography, someone who is a master of his craft – an expert in his field. But not only that, he is a fabulously fun, warm, honest and friendly person, who puts 110% of his energy and enthusiasm into your day.

Simon was able to capture some genuine and heartfelt moments, from a little squeeze of the hand, to a silent tear, a proud smile or an excited laugh”.

We had fun with Simon!

YOUR DAY

Even though I’ve been photographing weddings for over ten years, each one is always unique and always exciting. I still wake up earlier than I should and play wedding music in my car on the way to the locations with a silly grin on my face.

I get to practise my craft, surrounded by happy people having fun in beautiful locations. I consider myself very lucky. I want to hear all about your plans and how I can help make your day extra special.

SIMON YOUNG - WEDDINGS -

Congratulations to you both and thank you for your interest in my photography. I would welcome the opportunity to meet with you and understand how I can help your day be perfect.

About me

Hello! I am Simon, or Si. I live on the outskirts of Gloucester at the foot of the Cotswolds with my wife Karyn, dog Poppy and cat Tinky. My sons, Max and Zach are out in the World having fun. I used to run a company looking into how people experience things like brochures, websites and products. Part of this involved researching using eye-tracking technology. This fascinated me and I learnt how people look at and read pictures. Soon after, I gave up my old life and started my new life as a photographer, which I love, and I've never looked back. I also train and judge photography for different organisations including the Guild of Photographers where I've won an "Outstanding Contribution" award for my work.

PACKAGES AND PRICES

All of the packages are adaptable and I prefer to tailor a package to your exact requirements. Over recent years, nearly everyone has gone for the same "Digital Package".

£295

Sometimes I am asked to photograph simple, midweek ceremonies where the client only wants around twenty photographs. This all takes place, typically, at one venue and lasts a couple of hours. The Pictures are provided on a CD with rights to copy and print. Winter and midweek weddings are negotiable.
